for more than four decades bruno bettelheim was regarded by a large public as one of the world s most important and influential psychotherapists a viennese intellectual who stood as one of freud s few genuine heirs of our time in fact as richard pollak documents in this revelatory new biography bettelheim was a lumber dealer who grandly reinvented himself with a faked set of academic credentials after emigrating to the united states in 1939 in the years that followed deception followed deception as bettelheim claimed that he had traveled in freud s circle had treated autistic children in vienna had interviewed 1 500 fellow prisoners for his famous psychological study of concentration camp behavior and had been freed from buchenwald through the intervention of eleanor roosevelt in love is not enough truants from life and the empty fortress bettelheim s much praised books about the orthogenic school the home for emotionally disturbed children at the university of chicago that he ran for three decades he continued his fabrications maintaining that he had treated hundreds of schizophrenic children who feared for their lives at the hands of their parents shaping pseudonymous case histories to enhance his reputation and claiming with concocted statistics that he was returning 85 percent of his young patients to normal lives pollak also demonstrates in frightening detail how dr b as he was called at the orthogenic school often spun angrily out of control and abused the children both physically and emotionally all the while insisting in his books and from the lectern that such

punishment was absolutely verboten pollak also carefully spells out how bettelheim plagiarized portions of his prize winning book on the psychological meaning of fairy tales the uses of enchantment in a work of prodigious research pollak reveals the real bruno bettelheim for the first time giving us a portrait at once tough minded and sympathetic of a man who for all his success could never stop dissembling and re creating himself book jacket title summary field provided by blackwell north america inc all rights reserved

the beginning of genesis represents the basic foundation of the entire bible if the reader does not understand the foundational truths then he will likely misunderstand the rest of the book the truths that follow stand or fall upon the foundation of the first few chapters of genesis this book is a personal passion of my heart from a conservative viewpoint of god s creation of the world things did not just come into existence by some cosmic accident or chance but by an ingenious designer creator that purposed every facet of his perfect creation many individuals have been deceived with the teachings and the lies of evolution such as man arriving from a monkey some teachers have used these lies that the earth is billions of years old however the bible clearly teaches that creation came to pass just over 6 000 years ago those years are well documented in genesis and other bible accounts since my first degree was in science it is my desire to show every person possible that the bible is absolutely true and completely trustworthy the truth is that science is attempting to catch up with biblical truth yet it never will that is because the creator of this vast universe is so far advanced of all scientific discoveries that man will never be able to reach that super human level of wisdom god possesses unlimited understanding of creation that man will never achieve in the beginning every single thing made was perfect until man committed sin in genesis 3 my desire is to inspire all who are seeking to uncover the truth about creation to study those conservative teachings about life and how human beings arrived on earth there is absolutely no scientific evidence of any humans living on any of the other planets god

announced early in genesis that his focus was upon the heavens and the earth which is taught throughout the bible he never mentions about man getting to another planet but he does desire that all humans go to heaven the provision for man to go to heaven is through the blood of jesus since this is the only way

when one reads the holy bible in a straight forward literal manner it is without controversy how old the earth is the stars the universe and all of creation but science has had its way in manipulating otherwise strong christians and much of the bible's early books and verses have become a bit of contention a warning in the bible comes in 1 cor 2:5 your faith should not be in the wisdom of men but in the power of god if we believe that the holy bible is the inerrant transcribed word of god it then should never be tampered with twisted and distorted
